
Why Invest in Training?

The answers are simple...

Training makes your employees more efficient...with better retention.

Not only that...

Training makes your employees feel that they are important to you organization. Companies who provide their employees with the proper training keep them longer.

Training lets you create your superstars and keep them!

The bottom line...

Efficient, well trained and happy employees will save your company money.

It is how a company deals with and implements change that separates a truly progressive company from their competition.
Just owning the technology isn't enough!

Training Schedule

Basic KeyCreator Training (3 days)

Entry-level training for first time KeyCreator or CAD users. KeyCreator interface, 2D & 3D modeling. Working with construction planes, views levels and assemblies. File translation, editing geometry, drawing layout and dimensioning. Introduction into Solid modeling.

KeyCreator Adv. Modeling (2 days)

Entry-level training for the users with little or no experience with Solids or surfacing. Solid/Surface terminology & basic theory, creating and editing primitives, creating surfaces, creating solids from wireframe, creating solids from surfaces and vice versa, Importing, exporting and healing solid data. Parting line and mechanism development. How to effectively use solids in a mold design environment.

Prerequisites: working knowledge of KeyCreator or our KeyCreator Basic training course.

XMD Basic Training (3 day)

Entry-level training for the users with little or no XMD experience. Part preparation & file management, mold base layout & component generation, editing and adding mold components, creating BOM, creating & adding smart patterns, creating and adding custom assemblies.

Techniques for mold design utilizing XMD & KeyCreator

Prerequisites: working knowledge of KeyCreator or our Key Creator Basic training course.

Cadkey to KeyCreator Training (1day)

1 day advanced training course to help take an experienced Cadkey 19 user and introduce them to the new features, interface, file formats, etc.

Prerequisites: working knowledge of Cadkey.

February						
	1	2	Key	Key	Key	6
7	8	9	XMD	XMD	XMD	13
14	15	16	Key	Key	Key	20
21	22	23		Adv Key	Adv Key	27
28						
March						
	1	2	XMD	XMD	XMD	6
7	8	9	Key	Key	Key	13
14	15	16		Adv Key	Adv Key	20
21	22	23	Key	Key	Key	27
28	29	30	XMD			
April						
				XMD	XMD	3
4	5	6	Key	Key	Key	10
11	12	13		Adv Key	Adv Key	17

25	26	27	Key	Key	Key	

Pricing

Course	Time	Price
Basic KeyCreator	3 days	\$1,500
Advanced: Surfacing	2 days	\$ 1,000
Basic XMD	3 days	\$1,500
Advanced XMD	2 days	\$ 1,000
Advanced: Solids	2 days	\$ 1,000
KeyCreator/XMD Upgrade	2 days	\$1,000
Cadkey to KeyCreator Upgrade	1 day	\$ 500

Policies

- 🔧 Due to the diverse levels of learning abilities, students have the option to repeat a course (no charge)
- 🔧 Minimum class requirement of 3 students per course
- 🔧 Cancellation of registered student must be received 5 working days before first day of class in order to avoid cancellation charges
- 🔧 Due to limited space pre-registration is necessary. A purchase order will secure a seat in class
- 🔧 FULL Payment is due before the first day of class
- 🔧 Cornerstone Technology reserves the right to cancel or reschedule any course if minimum class requirements are not met.
- 🔧 Topics always cover the latest production release of software!
